EXECUTIVE SUMMARY

The Society of Petroleum Engineers, University of Ibadan Student Chapter (SPEUI), is known for strong academic programs, industry engagement, leadership training, and community service.

Over the years, the chapter has organized impactful events and achieved national and international recognition.

The 2025/2026 Session Agenda is a bold and clear plan to build on this strong foundation. The focus is on improving technical skills, preparing students for industry, developing leaders, engaging members, and increasing the chapter's impact.

This document serves as a planning guide and partnership proposal for Alumni, industry partners, sponsors, and SPE bodies. With shared support, this administration aims to strengthen SPEUI's reputation and produce confident, industry-ready graduates.

ABOUT US

■ Who We Are

The Society of Petroleum Engineers, University of Ibadan Student Chapter (SPEUI), is a professional student organization committed to academic excellence, career development, and leadership growth.

SPEUI has successfully organized events such as Industry Week, technical lectures, mentorship programs, Energy4Me outreach, and community services.

The chapter has also recorded strong performances in competitions and conferences at sectional, national, and international levels.

These achievements show SPEUI's commitment to developing well-rounded students who are prepared for both academic and professional success.

ABOUT US

■ Our Vision

To build an innovative and industry-focused student chapter that prepares members with the skills, knowledge, and exposure needed to succeed in the energy industry.

■ Our Mission

To support academic excellence, industry readiness, leadership development, and community impact through well-planned programs and strong partnerships

WHY PARTNER WITH US

Corporate Social Responsibility

Demonstrate your organization's commitment to empowering the next generation of Engineers.

Company Brand Visibility

Showcase your company's commitment to sustainability, innovation, and education through our extensive marketing channels and event materials.

Bridging The Industry-Academia Gap

Bridging the gap between the Industry and Academia via our provided platform of the brightest Academia.

Recruitment Opportunities

Engage with some of the brightest minds in the field for potential internships, job placements, and collaborative research opportunities.

Targeted Engagement

Gain direct access to over 500 Engineering students, industry professionals, and academias.

EVENTS OF THE TENURE

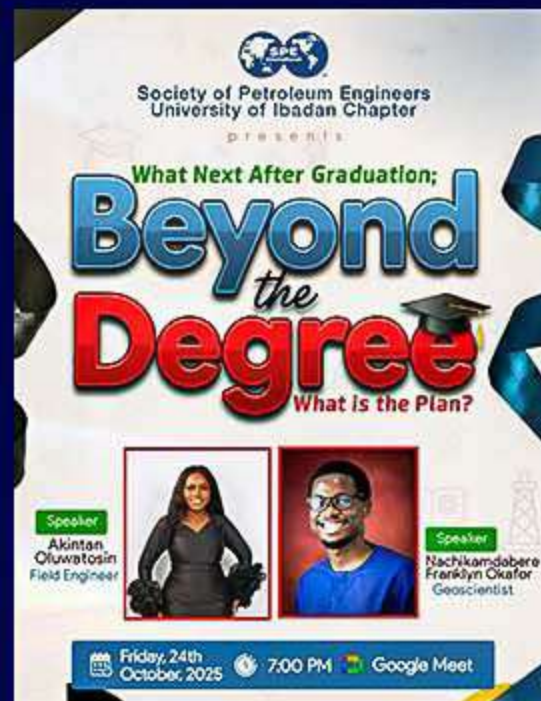

Professional Events
Technical Events
Community Service
Career Events

INDUSTRY WEEK 2025

THEME:
Engineering the future: Fostering Talent Development And Innovation In Today Oil And Gas Challenges

OCTOBER 6TH - 10TH

Society of Petroleum Engineers
University of Ibadan Chapter

What Next After Graduation;
Beyond the Degree
What is the Plan?

Speakers:
Akintan Oluwatolun Field Engineer
Nachikamdebere Franklyn Okafor Geoscientist

Friday, 24th October, 2025 7:00 PM Google Meet

Presents:
Research Webinar

Webinar Topics:
From Draft to Publication: Tips for Excellent Energy Research Writing
Thriving at SPE Paper Contests: The Secrets

5TH OCTOBER, 2025
6PM

Speakers:
Ubaydah Abduhwasil
Shammah Ndubuisi

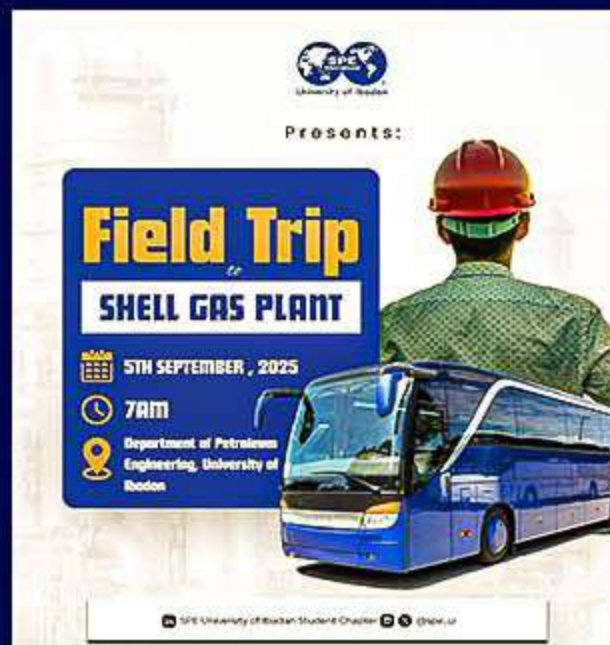

Technical Lecture WEBINAR - LIVE

TOPIC:
The Future of Drilling and Automation and the Role of Young Petroleum Engineers

AUGUST 31, 2025

Speaker:
Mr. Gioruntoba Isehunwa
Senior Drilling Engineer, Petroleum Engineering & Drilling, Shell International Petroleum Company

SPM Join Us Online

Presents:
Field Trip to SHELL GAS PLANT

5TH SEPTEMBER, 2025
7AM

Energy4me Outreaches

Impactful Activities

Professional & Career Events

PARTNERSHIP OPPORTUNITY

Program Specific Sponsorship

Support what matters to you the most by choosing to sponsor or Partner with us with Financial Support on specific events that aligns with your brand's values. We have variety of sessional Programs to be hosted, such as Freshers welcome, Late Emmanuel Egbogah Lecture, Website Development Process, Industry Week, AMBI-ZERO, Energy4me Outreaches.

Professional Development & Technical Partnership

This category is likely for partners that can provide Human Capital rather than just financial support. This could including sending guest speakers, Hosting Software Training Workshops for our students to bridge the gap between the industry-academia and , providing access to Industry Mentorship for professional development

Internship And Graduate Trainee Recruitment

This category is for Partners who are willing to gain early access to top talents and recruit the best Petroleum Engineering students for undergraduate internship or Graduate Trainee role.

PARTNERSHIP OPPORTUNITY

Community Impact & Partnership

Amplify your Corporate Social Responsibility (CSR) impact by partnering with us on initiatives that drives student welfare and community development. This will give your brand direct engagement with the university community while aligning with sustainable development goals.

In-Kind Partnership & Support

This Partnership model is for organizations that prefer to support us with resources rather than financial support. This direct contributions reduces our operational cost while ensuring our students receive high-quality technical exposure. This ensures your brand remains top-of-mind for top talent and industry stakeholders

For Financial Support,

0029991713

Bank Name: Guarantee Trust Bank (GTB)

Account Name: Society of Pet Engineers UI
